**Michael Robinson** is a senior cyber threat analyst and digital forensic examiner for a large, international company, where he specializes in threat detection, mobile device forensics, computer forensics, and intrusion analysis. Prior to this role, Michael was a senior digital forensic examiner for customers in the U.S. Intelligence Community, where he performed computer and cell phone exploitation and analysis. Previously, Michael performed computer forensic examinations in the FBI's Investigative Analysis Unit, where he assisted special agents with counter-intelligence and criminal cases.

Michael is the former CIO of the U.S. Department of Defense's Business Transformation Agency, where he oversaw all information technology and information assurance operations for the agency, including overseeing all incident response and forensic investigations.

Michael is the Program Coordinator and Adjunct Professor for Stevenson University's Master of Science in Cyber Forensics. At Stevenson, he was the recipient of the Rose Dawson Award for outstanding adjunct faculty member of the year. Michael is also an adjunct professor in George Mason University's Master of Science in Computer Forensics. He teaches courses in mobile device forensics, intrusion analysis, and cyber warfare. Michael holds a Bachelor of Science in Chemical Engineering, a Master of Science in Information Assurance, a Master of Science in Forensic Studies (concentrating on computer forensics), and a graduate certificate in Applied Intelligence. Michael has presented at numerous national and international conferences including DEF CON, the DoD Cyber Crime Conference, U.S. Cyber Crime Conference, CEIC, InfoSec World, and the BCISS Conference on Intelligence Analysis. He has authored over a dozen journal articles and a book on disaster recovery planning for nonprofit organizations.
