

Dr. Barry C. West

Dr. West is a career technologist and business leader with over 30 years in the information technology field with an emphasis on Cybersecurity.

He is currently the President of MicroTech, one of the top technology innovators in the world. He recently retired in May 2018 as the Senior Advisor and Senior Accountable Official for Risk Management at the U.S. Department of Homeland Security (DHS). Prior to his time at DHS, he was the President of the Mason Harriman Group, which is a management consulting company based out of Washington, D.C.

He has 28 years of government service to include being Chief Information Officer (CIO) at six different government organizations – Federal Deposit Insurance Corporation (**FDIC**), the Pension Benefit Guaranty Corporation (**PBGC**), Department of Commerce (**DOC**), Federal Emergency Management Agency (**FEMA**) during hurricane Katrina and the National Weather Service (**NWS**). He also was briefly the Acting Deputy CIO at (**DHS**) prior to his retirement.

His government service also included time in the U.S. Air Force where he was selected as the top individual for his career field by winning the Weather Observer of the Year Award from among 2,000+ competitors.

Dr. West also held private sector executive positions at S.E. Solutions Inc. and Tab Books Inc.

He is the past President of two of the largest IT associations in the United States: American Council for Technology (**ACT**) and the Association for Federal Information Resources Management (**AFFIRM**). He was presented the AFFIRM President's Award in Public Sector for 2017-2018.

He has represented the United States Government Information Technology community at four different world-wide gatherings of NATO countries.

Dr. West completed his Executive Doctorate degree in Business from Georgia State University with a focus on Cloud Computing in 2014. He was recently appointed by Georgia State University to be their Executive-In-Residence. He has published in IEEE Computer Society, IT Professional journal and the European Journal of Information Systems (EJIS) journal article where his research focusing on cloud computing was selected for publication.

Dr. West received an Honorary Doctorate degree in Business from his alma mater Northern Michigan University in May 2015 where he also delivered the Commencement Speech for the Spring 2015 graduates.

He is also an Emeritus member of the Government Business Executive Forum (GBEF).
